

Naoto Fukasawa / Japan

Outline

CondeHouse is delighted to present KAMUY collection, a new classic realized in collaboration with Naoto Fukasawa. Asahikawa is famous as a wood furniture producing district in Japan, and KAMUY collection came to fruition by a unique fusion of its local wood crafting technology and Fukasawa's artistic forming skills. The simple and well-made design of KAMUY naturally harmonises with any type of environments. KAMUY, the most chair-like chair, offers the feeling of déjà vu.

● Armchair • Side Chair

This is the fruit of the designer's desires and our craftsmanship responding to them. Every important point of the main frame is shaped edgy; the beams between the legs are very slightly tapered; the shape of the wooden seat is curved out based on 3D data. These small tricks make the chair look sharp from any angle. The chair looks so normal and beautiful.

● Table

The shape of this table is not round but not exactly square. The best part is the finish of the top board edge. The edge is not vertical but reverse-slanted to the back side. The slant angle is not constant but finely adjusted so that the thickness of the top board is thin and constant viewed from any angle. The legs can be positioned in two ways to match the number of chairs to be set (for ones more than 2100 mm in width).

Description for the Item List

Wood coating

Wood and wood coating available to each model

Fabric and leather

Check the applicability of fabric and leather to each model.

Make-it-lower

Items that can be lowered by cutting legs

Covering seat

Items with a Covering seat seat

Leather stitching

Items with leather stitching when upholstered with leather

QR code

The QR code at the top right of each page enables you to access our web page where you can see more images of our products.

Grain

- Random match
- Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.
- Book match
- Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.

Size description for chairs and tables

Diagram showing chair dimensions: w (width), d (depth), h (height), sh (seat height), ah (arm height).

Diagram showing table dimensions: w (width), wbl (width between legs), d (depth), h (height), h1 (height from floor to bottom of top board), h2 (height from floor to cross pieces of top board), t (thickness), dia (diameter).

w ..... width

d ..... depth

h ..... height

sh ..... seat height

ah ..... arm height

wt ..... weight (kg)

w ..... width

d ..... depth

h ..... height

t ..... thickness

h1 ..... height from the floor to the bottom of the top board

h2 ..... height from the floor to the cross pieces of the top board

wbl ..... width between legs

dia ..... diameter

\*Size description by 5 mm

\*Please note that there may be some measurement errors in size of chairs and sofas by the thickness of upholstery.
